

ASGCO CURTAINS

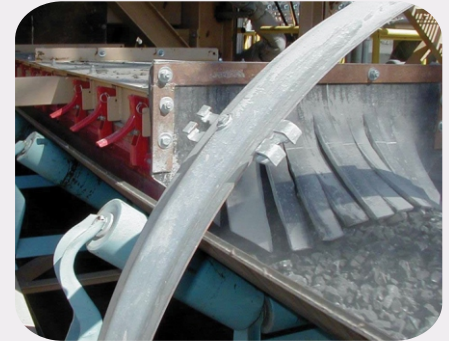

Advanced Dust Collection Management Systems

ASGCO's Dust Curtains help in the reduction of dust throughout the transfer point. These curtains outlast and outperform standard rubber curtains due to the ISO materials used by ASGCO.

*Fabric Reinforced,
Abrasion Resistant
PVC Material*

Slow The Air Movement And Control The Dust

ASGCO Curtains should be hung approx. 18" apart, forming "dead" areas where dust can settle and be collected or suppressed.

- **Allows Dust to Settle** – by slowing the air velocity down and allowing the airborne dust and particles to fall to the belt.
- **ISO 340 Anti-Static / ISO 284 Flame Retardant** – materials are used in the PVC and 2 ply fabricate constructed curtains.
- **Simple Adjustment** – on conveyors where dust is a problem, in below ground and above ground mining, pulp and paper.
- **Available in All Belt Widths**

ASGCO Dust Curtains

Part Number	Belt Width	Weight Lbs.
ASG-DUST-CURT-18	18	10
ASG-DUST-CURT-24	24	13
ASG-DUST-CURT-30	30	17
ASG-DUST-CURT-36	36	20
ASG-DUST-CURT-42	42	23
ASG-DUST-CURT-48	48	27
ASG-DUST-CURT-54	54	30
ASG-DUST-CURT-60	60	33
ASG-DUST-CURT-72	72	39
ASG-DUST-CURT-84	84	46

Providing the World Material Handling Industry with Productive, Safe and Reliable "Complete Conveyor Solutions."
