

V-PLOWS & DIAGONAL PLOWS

Discharge Fugitive Material to Both Sides of the Conveyor

Hinged V-Plow is a patented design to effectively keep material from becoming trapped between the tail pulley and the belt. The unique patented design of the "Hinge" part of the V-plow allows you to change the amount of angle the plow can have from 30, 45, or 60-degree angle.

V-Plows discharge fugitive material to both sides of the conveyor

Plow can be equipped with quick change clevis pins and hair pin clips

Plows have heavy duty 1" thick rubber contacting the belt.

Rubber is reversible for double the wear

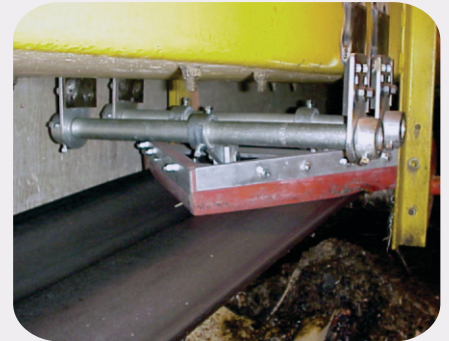

- **Hinged V-Plow** - installs flat and then the wings are spread out to the optimum angle to remove material traveling on the return side of the belt.
- **Protects and Reduces** - the conveyor belt from puncture damage and its three-point suspension keeps the plow parallel to the belt.
- **Easy Maintenance** - simple and easy to install and maintain.
- **Mine-Duty** - plows are also available.
- **Safety Chains** - standard on hinged plows.

Premium Hinged V-Plow Part Numbers

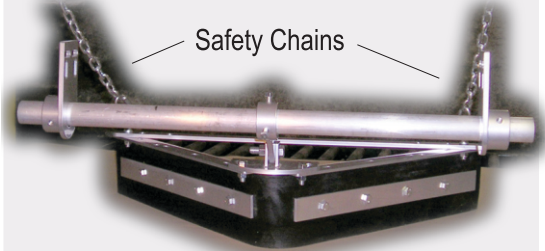

Part Number	Belt Width
M-ASG-VP-18-H	18
M-ASG-VP-24-H	24
M-ASG-VP-30-H	30
M-ASG-VP-36-H	36
M-ASG-VP-42-H	42
M-ASG-VP-48-H	48
M-ASG-VP-54-H	54
M-ASG-VP-60-H	60
M-ASG-VP-72-H	72
M-ASG-VP-84-H	84
M-ASG-VP-96-H	96

Heavy Duty V-Plow Part Numbers

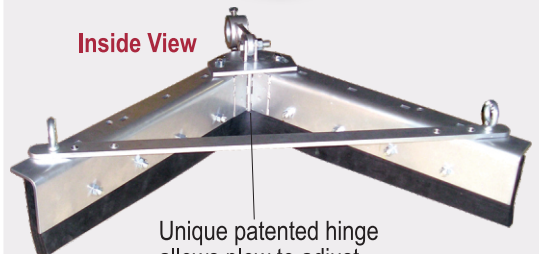

Part Number	Belt Width	Cleaning Surface
M-ASG-VP-18	18	18
M-ASG-VP-24	24	24
M-ASG-VP-30	30	30
M-ASG-VP-36	36	36
M-ASG-VP-42	42	42
M-ASG-VP-48	48	48
M-ASG-VP-54	54	54
M-ASG-VP-60	60	60
M-ASG-VP-72	72	72
M-ASG-VP-84	84	84
M-ASG-VP-96	96	96

45 degree flange on interior of door prevents fines from accumulating.

Safety Chains

Inside View

Unique patented hinge allows plow to adjust discharge angles

Heavy Duty V-Plow

Designed for the toughest mine duty environments.

Built of a rugged steel structure to hold up in the toughest environments.

Providing the World Material Handling Industry with Productive, Safe and Reliable "Complete Conveyor Solutions."

DIAGONAL PLOW

Reduces build-up on tail and take-up pulleys

Diagonal Plows are designed to discharge fugitive material from one side of the conveyor. Our diagonal plow is built of a rugged steel structure to hold up in the toughest environments.

Diagonal Plows discharge fugitive material from one side of a conveyor and can be used on reversible belts

- **Provides Effective** - cleaning of the return side of the belt, protecting your tail pulley and the conveyor belt.
- **Reversing Conveyors** - are not a problem for our diagonal plow.
- **Easy Maintenance** - simple and easy to install and maintain.
