

Buffalo Wire Works

Engineered Screening Media Since 1869

AGGREGATE PRODUCTS

Screening Media for the **Aggregate, Mining & Industrial Markets**

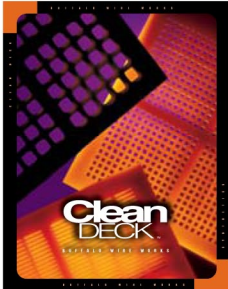

AGGREGATE LINE CARD

AGGREGATE LINE CARD

Wire Cloth

- Gator, high carbon, stainless and other alloys
- Offered in space, mesh, slotted openings, and anti-blinding designs
- Screens for aggregate, mining, and industrial markets
- GATOR WIRE - A superior long lasting high tensile, high strength abrasion resistant wire

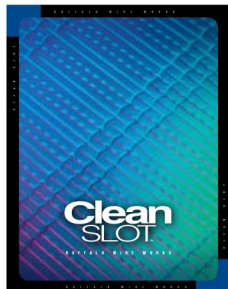

Clean Deck Synthetics

- Urethane and rubber products
- Synthetic screens for the aggregate and mining industries
- Modular panels, tension mats, classifier shoes, chute liners, urethane patches, sheet stock and much more

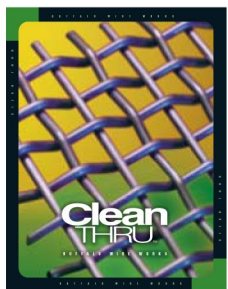

Clean PFX

- Anti-pegging and blinding
- Increased productivity
- Designed to meet your applications
- Offered in stainless steel and gator
- Available in 5 different designs to meet your screening needs (H, M, L, Harp, Clean Slot)
- Superior lap and strip design

Clean Slot

- Unique self-cleaning screen promotes lively product action
- Anti-blinding screen
- Slotted screen arranged with straight and crimped wires

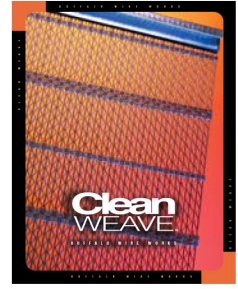

Clean Thru

- Prevents plugging while keeping material in specification
- Square opening design combining straight and crimped wires

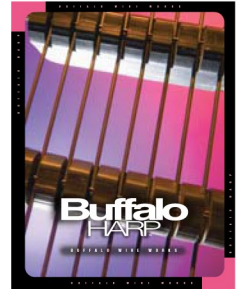

Clean Weave

- Designed for accurate sizing and blinding solutions
- Combination of straight and crimped wires rotated flat
- Offered in stainless steel and gator

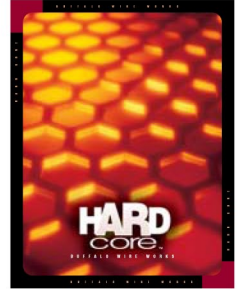

Buffalo Harp

- Re-engineered hook for fast and easy installation
- Molded polyurethane strips to prevent steel-on-steel wear
- Available in premium high tensile wire and stainless steel
- Increased production through maximum open area

Hard Core

- Available in all grades, including AR200, AR 400, and AR500
- Uniform through hardness
- Compare to competitors surface hard plate
- CAD drawings for pattern and blank out area approval
- Lower total cost per ton
- Miscellaneous wear plates

Slotted Screens

- Reduced blinding and increased screening efficiency due to more open area
- More efficient uniform flow in blinding conditions
- Enhanced open area allows more effective screening of bulky, wet and sticky material

Accessories

- Full range of high quality accessories: tension rails, bolts, pins, wedges, channel rubber, classifier shoes, miscellaneous wear plates
- Many items in stock for fast delivery
- Call our sales staff today for all of your requirements

Providing over 141 years of Engineering, Innovation and Customer Service
