Pro-Zone™

Modular Conveyor Belt Load Zone System

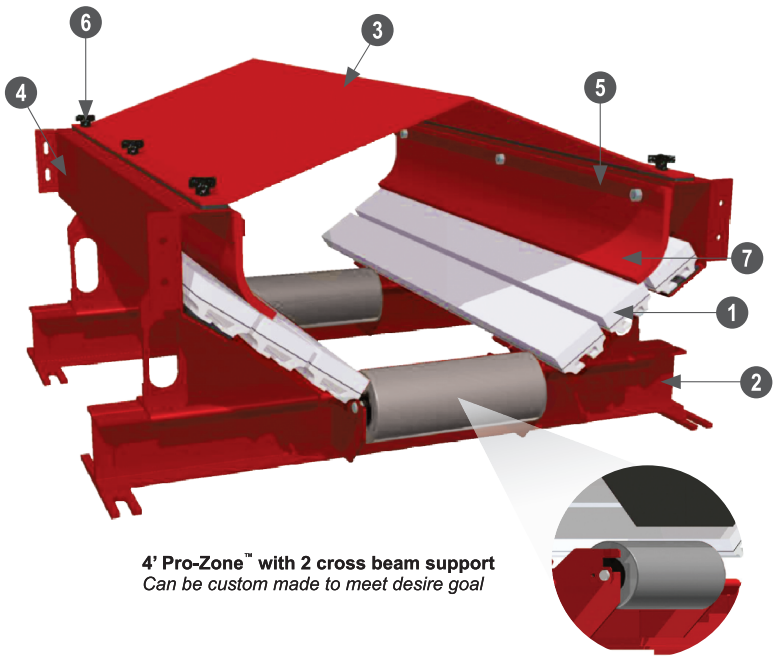
ASGCO®
Complete Conveyor Solutions

Pro-Zone™ is a patent pending modular conveyor belt load-zone system that optimizes the sealing for air/dust tightness of the receiving conveyor belt. This "skirt-less" fully self-contained system is comprised of our Slide-N-Roll beds with our removable "slide-out" designed UHMW and steel side supports and easily removable center rolls. Side guards, internal splash sealing system, dust curtains and angled hoods (aluminum or steel) completely enclose the entire system.

5' Pro-Zone with 3 cross beam support and optional inspection door
Can be custom made to meet desire goal

- **Environmentally Friendly** – due to significant reduction of airborne and fugitive dust and avoiding any risk of product loss in the loading area.
- **Increased Productivity** – and longer conveyor belt life because the completely sealed load zone helps eliminate material turbulence and conveyor belt cover abrasion.
- **Lower Maintenance Costs** – by having a "skirt-less", fully contained system that needs no adjustments of metal skirtboards or rubber skirting adjustments.
- **Modular Design** - can be installed in any combination of 4' (1200mm) or 5' (1500mm) lengths to completely cover load zone area. Quickly removable dust hoods, slide-out side sections and removable center rolls aid in the installation and maintenance of the system.
- **Made in the USA** - completely engineered, designed, fabricated and stock in the USA.

PRO-ZONE™



4' Pro-Zone™ with 2 cross beam support
Can be custom made to meet desire goal

Idler Roller
Removable center rolls ensure ease of access and total safety
