

REPLACEMENT BLADE ASSEMBLY

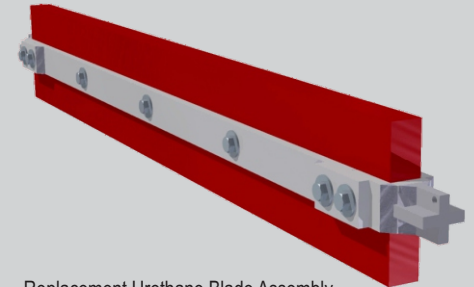

Retrofits the Richwood™ 1c or 3c Belt Cleaner

ASGCO®

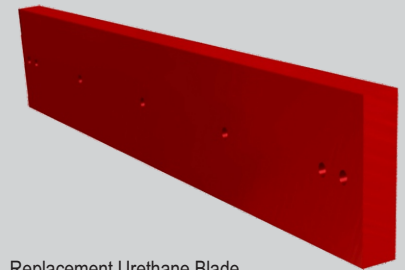

Complete Conveyor Solutions

The **ASGCO® Replacement Blade Assembly** has been created to retrofit your existing Richwood™ 1C or 3C Belt Cleaner system, without forcing you to replace your entire belt cleaner system. The ASGCO® Replacement Blades can be purchased with and without the frame; you purchase only the component you need!

ASGCO®'s Replacement Blades are made from a proprietary urethane compound that is highly abrasion resistant and incredibly durable. This new cleaner blade is resistant to harsh environmental factors, requiring fewer change outs and less downtime. Both straight or arrow blade styles are available and must be specified at the time of order.

Replacement Urethane Blade Assembly for Richwood™ Belt Cleaner Systems

Replacement Urethane Blade for Richwood™ Belt Cleaners

- **Retrofit worn Richwood™ 1 C and 3C Systems** - with high performance ASGCO® urethane blades without replacing the entire belt cleaning system.
- **Made of a Proprietary Urethane Compound** - the ASGCO® Replacement Blades are abrasion resistant - out performing OEM blades in cleaning and durability!
- **The ASGCO® Replacement Blades work seamlessly within existing Richwood™ belt cleaner frames** - replace only the worn blade component.
- **Rugged Frame** - made of powder coated mild steel.
