ASGCO’s patented 3-Roll Slide-N-Roll® Beds is the ultimate in load zone spillage control for wide, high speed and high tonnage conveyor belts as seen in below ground, above ground mining and port facilities. Our patented design encompasses a three-roller idler with low-friction UHMW bars, creating a dust free high-speed material transfer point.

- **Specifically Designed** - for wide, hi-speed (over 700 fpm), and high tonnage conveyor systems.
- **Reduces Dust** - by maintaining a flat area in the load zone for the skirting to maintain an effective seal against the conveyor belt.
- **Robust Design** - for the toughest applications in the material handling industry.
- **Custom Built** - beds can be made into 4’ (1200mm), 5’ (1500mm), 6’ (1800mm) or into our 10’ (3m) standard length bed with frames on 12’ centers.

For additional sizes contact ASGCO®

**Available in these Impact Bars:**

- **LOW PROFILE**
- **PREMIUM IMPACT**
- **HD SLIDER**

**PRODUCT SPECIFICATIONS**

- Maximum Belt Speed - 1000 fpm (5.0 m/sec)
- Application - Bulk Shipping Terminal, Cement, Wood Processing, Aggregate and Mineral (Polish, Salt) Mining
