

EXTERNAL WEAR LINER / SKIRTBOARD SYSTEM

Advanced Dust and Fugitive Material Containment System

ASGCO®

Complete Conveyor Solutions

ASGCO®'s **External Wear Liner / Skirtboard System** installed and accessible from the outside of the conveyor transfer point means never having to enter the internal (confined space) skirtboard to service internal liners again! The external skirtboard / wear liner are an effective and economical upgrade that protects and improves the conveyor skirtboards and sealing system. These are mounted on the outside of skirtboard allowing for ease of inspection and replacement of liners when required.

- **Safer Installation** – and maintenance – prevents confined space entry.
- **Easily Adjusted** – the external adjustable bolt-on system allows for ease of adjustment and safe removal.
- **External Wear Liners** – available in Mild Steel, AR 400 Steel or Stainless Steel available in 4ft and 6ft lengths.
- **Skirting Options** – Clamp-Mount® or Clamp-Mount MDX® skirting clamps can also be installed on the external skirtboard/wear liners to aid in dust and material control.
- **Internal Liner Options** – Added protection is available in Armorite®, X-Wear™ Ceramic or X-Wear™ AR 400 (straight or angled) that can be welded to the inside of the external skirtboard/wear liner system.

External Skirtboard/Wear Liner System		
Part Number	Description	Wt. Lbs.
ASG-ESB-48x11	4 ft Long External Skirtboard	0
ASG-ESB-72x11	6 ft Long External Skirtboard	0
