

ASGCO® – Complete Conveyor Solutions  
For Immediate Release  
December 9, 2015

## Introducing ASGCO®'s One-Sided Slide-lers™

Allentown, PA.: ASGCO® "Complete Conveyor Solutions" is proud to introduce the One-Sided Slide-lers™. ASGCO® new patent pending One-Sided Slide-lers™ give you the ability to change idler rolls under the conveyor loading skirt area without having to remove adjacent belt idlers. This allows the One-Sided Slide-ler™ to fit into tight or confined spaces, ensuring proper belt rolling support and ease of change out.

The new ASGCO® One-Sided Slide-ler™ is a modular designed product that allows you to remove the wing and center roll hangers for easy replacement of your idler rolls. It can also be designed to hold any manufacturer roll in the industry. The One-Sided Slide-ler™ minimizes down time and can be accessed from either side of the conveyor system.

For environments with extreme access limitations, ASGCO®'s new One-Sided Slide-ler's™ product is designed to be maintained from just one side of the conveyor system. This is ideal for systems with access on one side only, where a conveyor is located against the wall or high in the air with catwalk on one side. This allows you to replace rolls with minimal downtime and eliminate the need for man lifts or having to work in a confined space. Ideal for Coal Fired Power Plants, Hard Rock Mining, Steel Mills, Iron Ore, Aggregate and Mineral (Phosphate, Potash, Salt) Mining.

### Features & Benefits:

- Frames only take up 8" (200mm) of width when using 6" (150mm) rollers
- Allows for easy replacement of rollers in any environment
- Compatible with all manufacturer rollers
- One-Sided model for limited access applications
- Available for any belt width, troughing angle or idler
- Perfect for confined spaces
- Improves safety and meets all CEMA Standards
- **ASGCO®'s Total Satisfaction Guarantee (TSG)** - ensures your satisfaction.

### About ASGCO®

ASGCO® "Complete Conveyor Solutions" founded in 1971 and headquartered in Allentown, PA is a leading manufacturer, distributor and service provider of proprietary conveyor and screening equipment and accessories that improve the safety and performance of bulk material handling systems.

ASGCO® is a diversified and innovative company with three major divisions that serve specific targets of the material handling industry. The growth of the company, over the years, is due to recognized improvements in the efficiency, safety and productivity of our customers operations. At ASGCO® we continue to strive to make the handling of bulk materials more efficient, safer, and more productive.
