

Lunch & Learn

ASGCO[®]
Complete Conveyor Solutions

ASGCO's Team of Conveyor Product and Service Managers will facilitate this session, which will provide a strong basis for attendees to learn more about maintaining and troubleshooting their conveyor systems.

TOPICS INCLUDE

> CONVEYOR MAINTENANCE

- Conveyor-belt construction – applications overview
- The 3 T's (Track / Train / Troubleshoot)
- Conveyor Safety
- Improving Conveyor Productivity by reducing carryback and spillage

> BEARING AND GEARBOX MAINTENANCE / POWER TRANSMISSION

Dodge Sales Engineers will be on hand to discuss proper installation and maintenance of bearings, gearboxes and related items. This session will provide attendees with useful information to extend equipment life and improve production run time.
