

SINGLE HANDLE CLAMP-MOUNT®

Skirt Sealing System

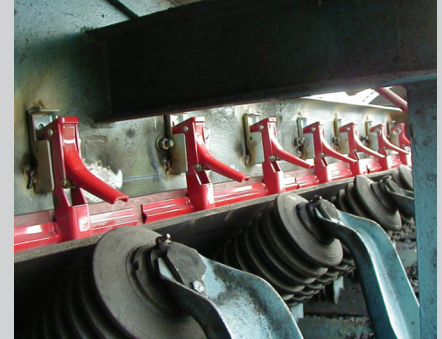

ASGCO®

Complete Conveyor Solutions

The **Clamp-Mount®** skirting clamps help eliminate spillage and dust in the conveyor transfer point. The Clamp-Mount® installs easily and allows for one worker to reposition or replace skirt rubber.

- **Increase Conveyor Performance** – by helping to eliminate spillage and dust in the loading zone.
- **Reduce Downtime** – by the simple clamp adjustment and release to allow repositioning or changing out skirting in minutes versus hours, without tools, getting your conveyor system back online quickly.
- **Rugged Construction** – of our 9" (225mm) high by 24" (600mm) long clamp provide effective locking ability for any type of skirting material.
- **Alternative Clamps** – include a stainless steel, a mine-duty, a low-profile 6" (150mm).
