

Excalibur®

Food Grade Conveyor Belt Cleaner

Sanitary and Safe Light Weight Belt Cleaner

Excalibur® is a patented belt cleaning system that uses a unique blade, holder and tensioning mechanism. Excalibur® is particularly suited for light duty thermoplastic belts with widths from several inches to 10'. Excalibur® is designed and configured to meet the most stringent sanitary requirements of the food manufacturing industry and uses USFDA and USDA approved materials. In fact, no other cleaner offers these crucial operational features, saving customers money while assuring safe, high quality manufacturing.

BENEFITS & FEATURES

- Works great on flexible modular plastic table top conveyor belting
- Meets all sanitary requirements
- Features a unique blade, holder and tensioning mechanism
- Many blade materials available
- Disassembly in less than a minute.
- No tools are needed to install, replace blades or to disassemble
- Precision tension selection with torsion spring tensioner
- Primary & Secondary mounting locations
- One year full warranty on tensioner
- Corrosion resistant electro-polished, 300 series stainless steel

EU Food Contact
Regulation

Article 15 of the Framework Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food specifies the labelling requirements. It says that food contact materials shall be accompanied by the words "for food contact" or this symbol, unless when it is obvious that the article is for food contact.

FDA Approved, USDA Certified,
EU 1935/2004 Compliant

Designed to meet the strict sanitary guideline established for food processing operations. FDA approved materials and certified by the United States Department of Agriculture for use with meat and poultry, as well as dairy, for facilities requiring USDA accepted equipment in their operations.

Excalibur® Snap-On Replacement Blades

- 01. UHMW Natural
- 02. UHMW Long Neck
- 03. UHMW Blue
- 04. Nylon Blade
- 05. Metal Detectable

Works Great on Flexible
Modular Plastic Table Top
Conveyor Belting

Specifications:

- **Temperature Range**
UHMW: -20°F to 140°F
(-29°C to 60°C)
- **Blade Height**
3" (76mm)
- **Blade Width Range**
4" to 120" (102 to 3048mm)
- **Pole/Mounting Material**
304 Stainless Steel
- **Blade Hardness**
UHMW: 63D Shore Hardness
Urethane 85A Shore Hardness

- **Pulley Diameter Range**
-1" to 8"+ (25 to 457mm)
- **Blade Material**
Food-grade UHMW

Selecting Installation:

When the Excalibur® is mounted on the Head Pulley, this is referred to as the Primary Orientation. This will aid in dislodging fugitive material from the belt and is very effective.

On some conveyors, lack of space at the Head Pulley may result in the need to position the Excalibur® at a Secondary Location. All procedures are the same as preparing for the Primary Installation except the position is Secondary and there is no "N" Dimension involved.
