ASGCO® – “Complete Conveyor Solutions”
For Immediate Release
December 6th, 2021

ASGCO® Announces their New Grizzly™ Screw-Splice Conveyor Belt Fastening System!

Nazareth, PA.: ASGCO® “Complete Conveyor Solutions” announces the latest addition to their line of conveyor belt products that enhance efficiency, safety and productivity.

The Grizzly™ Screw-Splice provides a strong and flexible rubber splice that screws directly on the conveyor belt, with great accuracy and precision. The Grizzly™ Screw-Splice conveyor belt splicing and fastening system delivers power, strength, and flexibility in every application. It is the perfect fastener to save you time and money while allowing a quick, accurate, and easy installation.

Compared to traditional metal fasteners, this splice is much stronger, wears less, and has a low-profile silhouette that is easier on the components of your conveyor systems. The Grizzly™ Screw-Splice includes specialized self-tapping and self-drilling screws that uphold the toughness of the conveyor belt by passing through the belt carcass instead of creating holes, which significantly compromises strength.

The Grizzly™ Screw-Splices are available in different rubber compounds and tensile strengths (up to 1,650 PIW) for various bulk material handling and mining applications.

About ASGCO®

ASGCO® “Complete Conveyor Solutions” founded in 1971 and headquartered in Nazareth, PA is a leading manufacturer, distributor and service provider of proprietary conveyor equipment and accessories that improve the safety and performance of bulk material handling systems.

ASGCO® is a diversified and innovative company with three major divisions that serve specific targets of the material handling industry. The growth of the company, over the years, is due to recognized improvements in the efficiency, safety and productivity of our customers operations. At ASGCO® we continue to strive to make the handling of bulk materials more efficient, safer, and more productive.
