

X-WEAR™ URETHANE MAGNETIC LINERS AND PATCHES

Wear-Resistant Protection

X-Wear™ Urethane Magnetic Liners and Patches provide a temporary yet reliable patch system that can be installed quickly and safely without the use of welders or bolt fastening systems. This allows for minimal downtime, in repairing a leak or wears spot on chutes or load points to name a few. When time allows, the ASGCO® X-Wear™ Urethane Magnetic Liners and Patches can easily be removed, so that a more permanent repair can be performed.

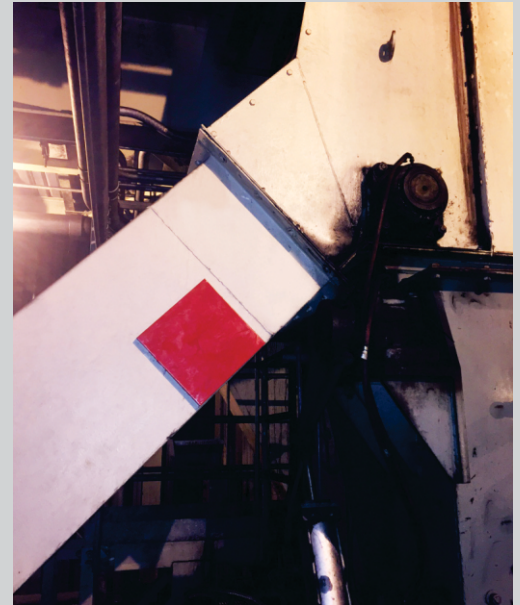

Urethane Magnetic External Liner or Patch

Feature & Benefits

- Constructed with ASGCO-thane® Polyurethane
- Imbedded High strength rare earth magnets allow for installation using magnetic force alone
- No Bolting – No Welding – No Cutting to the applied area
- Eliminates the need for Hot Work permits in most areas
- Stay securely in place on vibrating screens and chutes
- Can be repositioned easily and safely, when time permits, for the repair to be done permanently
- Can be field trimmed to fit unusual surfaces or conditions, due to the polyurethane material
- Custom Size Available Upon Request

Urethane Magnetic External Liner or Patch	
Part Number	Size
ASG-1-12x12-UMWP-1	1x12x12
ASG-1-6x6-UMWP-1	1x6x6

X-WEAR™ URETHANE MAGNETIC LINERS AND PATCHES

Urethane Magnetic External Patch with 6" Ceramic

Feature & Benefits

- Constructed with ASGCO-thane® Polyurethane
- Imbedded High strength rare earth magnets allow for Installation using magnetic force alone
- Advanced Hard Ceramic Wearplate
- Easy wear rotation
- No bolts or glue
- Can be applied to chutes and hoppers
- For use in dry and wet applications
- Can be repositioned easily and safely, when time permits, for the repair to be done permanently
- Custom Size Available Upon Request

Urethane Magnetic External Patch w/ 6" Ceramic	
Part Number	Size
ASG-1-12x12-UMWP-6C-1	1" x 12" x 12" - 6" Ceramic

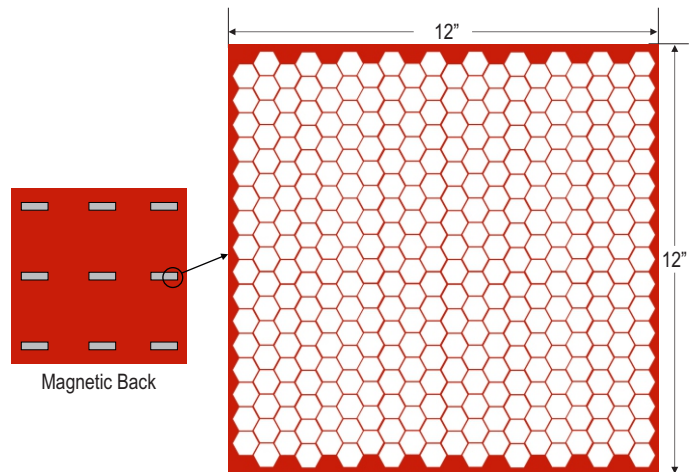

Urethane Magnetic Internal Liner with 6" & 12" Ceramic

Feature & Benefits

- Constructed with ASGCO-thane® Polyurethane
- Imbedded High strength rare earth magnets allow for installation using magnetic force alone
- Advanced Hard Ceramic Wearplate
- Ceramic embedded tiles provide superior sliding abrasion resistance and low impact for high fines applications, wet or dry.
- Can be repositioned easily and safely, when time permits, for the repair to be done permanently
- Custom Size Available Upon Request

Urethane Magnetic Internal Liner w/ 6" Ceramic	
Part Number	Size
ASG-1-12x12-UMWP-12C-1	1" x 12" x 12" - 12" Ceramic
ASG-1-6X6-UMWP-6C-1	1" x 6" x 6" - 6" Ceramic
