Features and Benefits

- **Easy to use.** The SafeGuard® Conveyor Belt Lifter can be easily operated with a manual ratched or drill.
- **Works on a wide range of conveyors.** The Belt Lifter is for the belt widths 36"-60" (900-1500 mm). Belt can either be lifted flat or in troughed position.
- **Safe.** Features a extendable sturdy dual-rail base and high lift capacities.
- **Easy operation.** Its compact and lightweight design ensures an easy to use operation.
- **Won't damage the belt.** Lift the belt from underneath. Does not clamp onto the belt's edges or cover.
