

WACOCUT

STEEL CORD CONVEYOR BELT CUTTER

EFFICIENT AND SAFE CUTTING WITH HIGH PRECISION

The **WACOCUT Steel Cord Conveyor Belt Cutter** from **ASGCO®** cuts conveyor belts of all common types and strengths, especially steel cord belts at right angles to the running direction, in the shortest possible time.

The **WACOCUT** offers a high level of safety when cutting conveyor belts, especially steel cord belts. It minimizes the risk of accidents at work and health hazards thanks to its low-noise, emission-free operation and the avoidance of sparks and smoke.

WAGENER
VULCANIZERS

FEATURES & BENEFITS

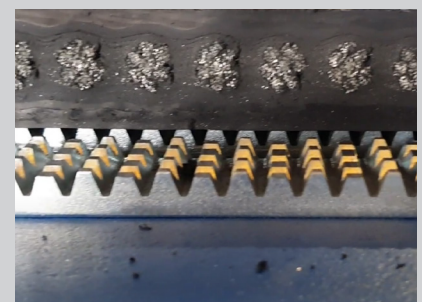

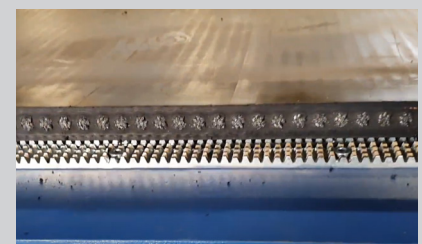

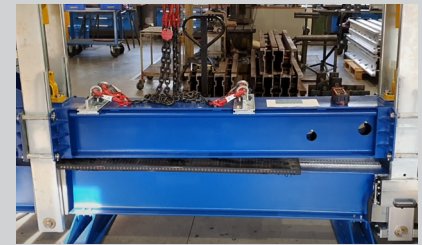

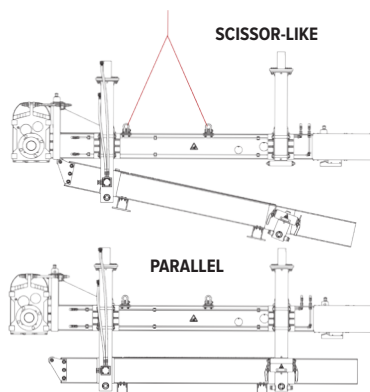

- **Easy and safe handling** with high cutting performance
- **High work safety** due to the unique design
- **The cutting process** is fully automatic
- **Emission-free operation** (low-noise, no sparking, no smoke development, no air pollution)
- **Low personnel requirements**
- **The tool can be used indoors** without hesitation
- **Designed for stationary use** within a workshop and for mobile use in all conveyor systems
- The WACOCUT can be opened parallel or scissor-shaped (crocodile type)

DIMENSIONS WITHOUT CONTROL UNIT

- **Width:** approx. 38in / 960 mm
- **Height:** approx. 69 in / 1750 mm
- **Length:** approx. 102 in / 2600 mm + belt width

TECHNICAL DATA

- **Service voltage:** 400V, 50Hz, 3Ph+N+PE
- **Driving power, ripping knife:** 2.2 kW
- **Driving power, pump motor:** 3.0 kW
- **Max. belt width:** up to 126 in / 3200 mm
