

VUL-CON® POWERPACK™

RELIABLE ALL-IN-ONE POWER. BUILT FOR EASY TRANSPORT. READY ANYWHERE.

The **VUL-CON® PowerPack™** is a fully integrated, field-ready solution designed to supply power, compressed air, and coolant for vulcanizing operations. Built for mobility and reliability, it eliminates the need for multiple standalone units—streamlining setup and improving efficiency on-site.

Powered by a dependable Honda GX690 engine, this compact unit delivers consistent performance in demanding environments. With integrated forklift pockets and lifting points, the PowerPack™ is engineered for easy transport and quick deployment wherever the job takes you.

FEATURES AND BENEFITS

- All-in-one power, air, and cooling solution
- Easy transport with forklift pockets
- Integrated lifting points for quick setup
- Reliable performance in demanding environments

SPECIFICATIONS

PowerPack™ Generator System

- 480V, 3-Phase, 16kW Power Output
- Maximum 16.9 Amps Capacity
- 110V Single-Phase Power (Up to 30 Amps)
- Electric Start for Reliable Operation
- 9.0-Gallon Gasoline Fuel Tank
- Honda GX690 Engine for Proven Performance

PowerPack™ Compressor System

- Up to 200 PSI Maximum Pressure
- 3.0 CFM at 90 PSI Output
- 2.5-Gallon Air Tank Capacity
- 50-Foot Retractable Hose Reel

PowerPack™ Water/Coolant System

- 25 Gallon Collant Reservoir
(Can be Used for Water or Water/Glycol Mix)
- Integrated Cooling Pump System
- 1.6 GPM Flow Rate
- Maximum Feet of Head 230ft
- Dual 50' Retractable Hose Reels For Coolant Supply and Return to Tank.
- Regulated 20 PSI Air System Integrated to Blow Out System (Including Press) to Return All Fluid Back to the Reservoir.
