

Industries Served

- Aggregate & Cement
- Power
- Coal and Mineral Mining
- Bulk Shipping Terminals
- Recycling
- Steel Mills
- Packaging and Handling
- Food Processing

Conveyor Services and Support Since 1971

Available 24/7/365

Mid-Atlantic's Largest Conveyor Distributor and Service

Service Centers

Nazareth, PA
ASGCO® Complete Conveyor Solutions
730 Bangor Road
Nazareth, PA 18064
800-344-4000
Fax: 610-778-8991

Baltimore, MD
ASGCO® Complete Conveyor Solutions
798 Marriottsville Road
Marriottsville, MD 21104
410-442-5122
Fax: 410-442-5188

Richmond, VA
ASGCO® Complete Conveyor Solutions
2371 Lanier Road
Rockville, VA 23146
804-719-9442
Fax: 804-719-9441

Beckley, WV
ASGCO® Complete Conveyor Solutions
183 Angle Drive
Harper, WV 25851
304-252-5260
Fax: 304-934-8188

BELTING & SPLICING SERVICES

ASGCO® field service technicians are MSHA Part 48 trained & manufacturer-certified in conveyor belt splicing. From emergency repairs to scheduled belt replacements, our crews help keep your operation running safely & efficiently.

- **Hot & Cold Vulcanizing:** Splicing & repairs for fabric, steel cord & specialty conveyor belting.
- **Belt Stringing & Replacement:** On-site belt installation, removal & changeouts.
- **Mechanical Splicing & Belt Repair:** Mechanical fastener installation & repairs to damaged conveyor belting.
- **Pulley Lagging:** In-shop & on-site lagging for drive, head, tail, snub, bend & take-up pulleys.
- **Lightweight Conveyor Belting:** Belting solutions for food processing, packaging & industrial applications.
- **Belt Testing:** DIN abrasion & tensile strength testing to evaluate belt properties & support belt selection.

INSPECTIONS & MAINTENANCE

- **Conveyor Inspections:** Identify carryback, mistracking, spillage, dust & worn components, with documented findings & recommended solutions.
- **Preventive Maintenance:** Scheduled inspections & maintenance programs to address wear before it leads to unplanned downtime.
- **Shutdown & Outage Support:** Coordinated belt replacements, component changeouts & installation work during planned shutdowns.
- **Laser Alignment:** Precision alignment services to identify & correct conveyor alignment issues.

MOBILE MAINTENCE & INSTALLATION

Fully equipped service trucks and trailers bring experienced crews, tools & equipment directly to your operation.

- **Mechanical Maintenance:** Installation, replacement & maintenance of pulleys, bearings, gearboxes, motors, couplings, idlers & take-ups.
- **Conveyor Component Installation:** Belt cleaners, belt trackers, skirting, load zone support systems, wear liners & guarding.
- **Chute & Hopper Repairs:** On-site lining r eplacement, welding, fabrication & rebuilds.
- **Material Handling Equipment:** Installation & maintenance of bucket elevators, drag chain conveyors & screw conveyors.

ENGINEERING & DESIGN

- **3D Laser Scanning & CAD Modeling:** Capture existing equipment & develop drawings to support fit-up, fabrication & installation planning.
- **Transfer Chute Design & DEM Analysis:** Evaluate material flow & develop transfer point solutions to address spillage, dust, plugging & wear.

METAL FABRICATION

In-shop and on-site fabrication using mild, stainless and abrasion-resistant steel.

- Transfer chutes, hoppers, bins and bunkers
- Conveyor sections, frames and supports
- Load zones, discharge areas and flop gates
- Custom fabrications and replacement assemblies
