

ASGCO®
Complete Conveyor Solutions

FINGER-FLEX SPLICE®

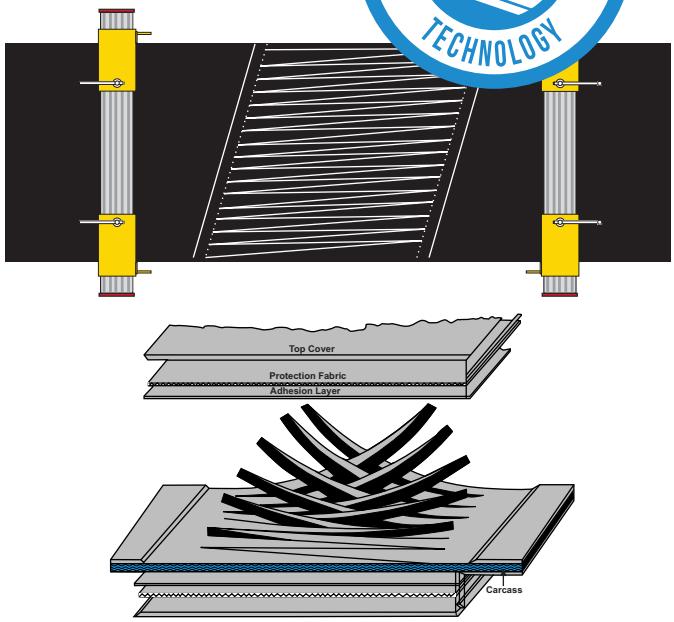

Our Finger Splicing is the Toughest Splice…PERIOD!

ASGCO® FINGER-FLEX SPLICE™ SINCE 1971 TECHNOLOGY

Conveyor Belt Splicing

ASGCO®'s service teams are trained and known as some of the best conveyor belt splice technicians in the industry.

Consistently on the cutting edge of splicing technology, ASGCO® has taken its finger splicing technique one step further by developing a procedure that makes finger splicing straight-warp belts less time consuming, less expensive and easier to perform....***ASGCO®'s FINGER-FLEX® SPLICE TECHNOLOGY!***

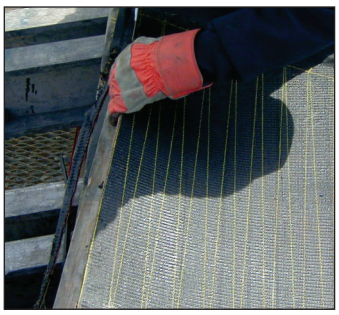

2Year Performance Warranty

24/7/365 Service
We Offer 24 Hour Belt Installation and Service

Features & Benefits

- Higher strength rating than lacing, no gap at the splice and no mechanical fasteners needed.
- Eliminates catch points and product build up.
- Splice method creates a stronger, flexible endless belt for tougher applications.
- Supports up to 100% of the conveyor belt's nominal tension.
