

3-DEM™ SOLUTIONS

3-DEM™ Chute Analysis Program

ASGCO®'s 3-DEM™ Complete Transfer Point Design and Fabrication, is a revolutionary way to handle granular and particular material handling problems through computer simulation and 3-D CAD. Combined with our conveyor and material handling knowledge and engineering capabilities we are able to make transfer point problems a thing of the past.

The design of a transfer point will greatly affect the life of components as well as maintenance costs and safety.

Benefits of Hood and Spoon Design:

- High Impact and Low Velocity are Avoided
- Coherent Constant Speed Loading
- Prevention of Spillage, Wear and Degradation

3-DEM™ Simulation Original Chute Operation

3-DEM™ Simulation New Chute Design

New chute fabricated for installation
